

QUICK-START GUIDE

Smart Pencil

What's in the Box

Power Management

Power On

Pull out the pen cap once.

Power Off

Pull out the pen cap again, or wait for the pencil to shut down automatically after 5 minutes of inactivity.

Bluetooth® Connection

The pencil functions with or without a Bluetooth® connection. Bluetooth® is primarily used to display the battery level and charging status on the iPad.

Startup

The white LED turns on and enters reconnect mode for 6 seconds to detect the last paired device.

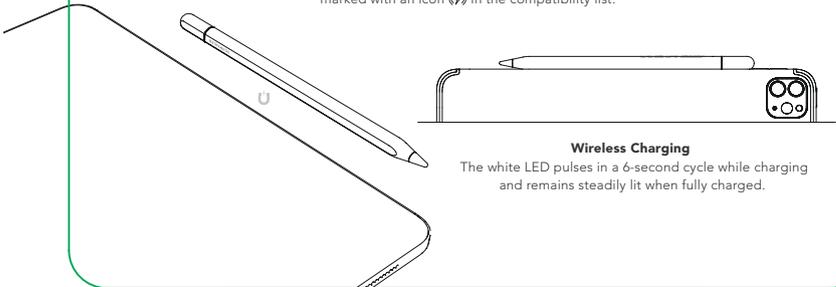

If connected - The white LED stays on.

If not connected - After 6 seconds, the pencil enters Bluetooth® search mode, with the white LED flashing rapidly for 10 seconds. If no connection is established, the LED returns to a steady-on state. Search mode turns off after 5 minutes.

Automatic Connection - The Smart Pencil may connect automatically when the cap is removed and reinserted, even if it is not attached to the iPad or paired via the iPad's Bluetooth® settings.

Wireless Charging Function

Attach the Smart Pencil magnetically to a compatible iPad. The magnetic power On/Off function is only supported by models marked with an icon (⚡) in the compatibility list.

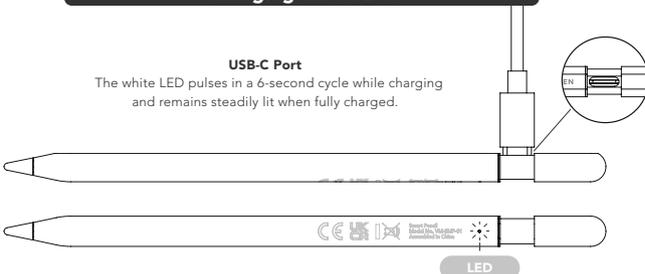

Wireless Charging

The white LED pulses in a 6-second cycle while charging and remains steadily lit when fully charged.

Charging via USB-C

USB-C Port

The white LED pulses in a 6-second cycle while charging and remains steadily lit when fully charged.

Low Battery Mode (5%)

White LED flashes and issues an alarm continuously until shutdown. Recharge the battery promptly.
